

NORSK GEOLOGISK TIDSSKRIFT

A Norwegian journal
of geology

Volume 51 . 1971 Number 4

Universitetsforlaget

Norsk Geologisk Tidsskrift

*A Norwegian journal of geology issued under the auspices of
the Norwegian Geological Society*

EDITOR

Konservator NATASCHA HEINTZ, Paleontologisk Museum, Sars gate 1, Oslo 5, Norway.

EDITORIAL COMMITTEE

Dosent B. G. ANDERSEN, Professor H. NEUMANN, Professor J. A. W. BUGGE,
Professor A. HEINTZ, and Professor T. STRAND.

PUBLISHER

UNIVERSITETSFORLAGET, P.O. Box 307, Blindern, Oslo 3, Norway. American office: P.O.
Box 142, Boston, Massachusetts 02113, U. S. A.

SUBSCRIPTIONS

Members of the Norwegian Geological Society who have paid their annual subscription (N. Kr. 25.—) receive the journal free from Universitetsforlaget. Membership subscriptions, changes of address, and communications from members concerning the journal should be sent to the Treasurer, Norsk Geologisk Forening, Geologisk Museum, Sars gate 1, Oslo 5, Norway.

Non-members of the Norwegian Geological Society should send their orders to Universitetsforlaget. The subscription price per volume (four issues) including postage, is as follows:

Norway: N. kr. 55,— postgiro 15530.

Sweden: S. kr. 42,— postgiro 44337.

Denmark: D. kr. 55,— postgiro 14954.

U.S.A.: U.S. \$ 9.25.

Single issues, at a price of N. kr. 15,—, U.S. \$ 2.50, can also be ordered.

Instructions to Authors

Manuscripts should be sent to the Editor. The author's permanent and temporary addresses must be given. Accepted manuscripts will not be returned until printed, and the author is requested to retain a complete copy of the manuscript. Authors will receive one set of proofs which should be read carefully and returned promptly to Universitetsforlaget. The author will be charged for changes against the manuscript made by him in the proof. Fifty reprints are sent free of charge to an author. In cases of multiple authorship, 75 reprints are sent to the team. Reprints in addition to those supplied free should be ordered when the first proofs are returned to Universitetsforlaget.

MANUSCRIPT

The manuscript must be typewritten (carbon copy not acceptable) on one side of standard sized paper, double spaced, with an ample margin. The text must be clear and concise, and written preferably in English; however, Norwegian, Danish, Swedish, French, or German may be used. Manuscripts should be arranged in the following order: (1) Informative but brief title. (2) Author's name. (3) A short abstract, always in English, not exceeding 12 lines (910 letters and spaces), and starting with a repetition of 2 and 1 with a translation in parentheses of non-English titles. (4) The author's professional postal address and a dating of the manuscript. (5) The main text. Use three or fewer grades of headings. Instead of footnotes, insert paragraphs which can be composed in smaller type or use parentheses. Indicate in the left-hand margin the places for the insertion of Figures and Tables. All halftones will be printed in their proper place in the text. The words 'Fig.' ('Figs.') and 'Table' (unabbreviated) are to be capitalized. (6) List of References conforming with the examples given below. Abbreviations used should be consistent: necessary editorial changes will be made according to the *Suggestions to Authors of the Reports of the United States Geological Survey* (5th ed., 1958). (7) Figure captions on a separate sheet. Add an English caption below captions in other languages. (8) Tables, if any, with captions, numbered with arabic numerals.

ILLUSTRATIONS

Illustrations should be reducible to a maximum size of 11.8×19.8 cm or less. If not adjustable to the entire width of the type area, 11.8 cm, they must be considerably narrower. Line drawings (maps, sections, etc.) may occasionally be allowed to extend into the inner margin of the page by an additional 2.7 cm. Drawings are to be in black Indian ink. Letters should not be smaller than 1 mm after reduction for reproduction. Photographs should be clear, sharply contrasted, and printed on white paper with glossy finish. Figures may be composed of several units (designated A, B, C, etc.) and mounted in such a way that each unit after reduction is separated by a space at least 1 mm broad. All units should be similar in tone. Illustrations should generally be termed Figures (not Plates) even if occasionally covering an entire page. All Figures should be marked with the author's name and the Figure number. Do not attach captions to the Figures. When not obvious, the top and bottom of Figures, and their scale, should be indicated.
