Norsk Geologisk Tidsskrift

A Norwegian journal of geology issued quarterly by the Norwegian Geological Society (Norsk Geologisk Forening). Founded in 1905. The journal has as its general aim to publish review articles, papers, notes and discussions with relevance to the varied and complex geology of Norway, the Polar regions and adjacent offshore areas. Accordingly scientific papers from all geological, geophysical and geochemical disciplines will be considered for publication.

SPONSOR The Research Council of Norway (Norges forskningsråd).

EDITORS Allan Krill, Rognvald Boyd, Reidulv Bøe, Trondheim.

SECRETARY Eli Bjerkkan, Trondheim.

EDITORIAL BOARD S. M. Bergström, Columbus, Ohio; B. C. Burchfiel, Cambridge, Massachusetts; D. L. Bruton, Oslo; O. Eldholm, Oslo; W. L. Griffin, North Ryde, New South Wales; W. MANUSCRIPT ADDRESS Manuscripts conforming with the instructions given on page 3 of this cover should be addressed to: Editor of Norsk Geologisk Tidsskrift, P.O. Box 3006 Lade, N-7002 Trondheim, Norway. Telefax 47 7 90 44 94.

BUSINESS ADDRESS Communications regarding accepted manuscripts, proofs, orders for offprints, subscriptions, etc. should be sent to the publisher's office in Oslo (see below).

PUBLISHER Scandinavian University Press, P.O. Box 2959, Tøyen, 0608 Oslo, Norway. Fax: +47 22 57 53 53. U.S. address: Scandinavian University Press North America, 875-84 Massachusetts Ave., Cambridge, MA 02139, USA. Fax: +1 617 354 6875. Toll-free number: 800 498 2877.

SUBSCRIPTION PRICE Members of the Geological Society of Norway (Norsk Geologisk Forening) who have paid their annual subscription (NOK 350,-) receive the journal free from Scandinavian University Press. Membership subscriptions, changes of address, and communication from members concerning the journal should be sent to the Treasurer, Norges geologiske undersøkelse, Norsk Geologisk Forening, P.O. Box 3006, Lade, N-7002 Trondheim, Norway.

Subscription price for non-members of the Norwegian Geological Society (postage included for four issues per year) is: NOK 810,- (approx. USD 125) (in Sweden SEK 815,-, in the other Nordic countries NOK 740,-). Airmailed to subscribers worldwide. In Japan, all subscriptions should be ordered through the Maruzen Co. Ltd., 3-10 Nihonbashi 2-chome, Chuo-ku, Tokyo 103, Japan.

This journal can be ordered in microform from University Microfilms International, 300 North Zeeb Road, Dept. P.R., Ann Arbor, MI. 48106, USA.

Cover picture: Landsat-5 TM false colour composite sub-scene (Bands 4, 5, 3 as red, green, blue) covering the Varanger Peninsula, an area of 114 × 90 km, at a 30 m ground resolution. The image was digitally processed to enhance structural elements and lithological contrast as part of a joint project (Lineament and Fault System Analyses in Finnmark and Western Kola Peninsula) between the Geological Survey of Norway and the Russian Academy of Sciences, also partly involving the Geological Institute, University of Bergen. The NW-SE trending Trollfjorden-Komagelva Fault Zone can be seen as a lineament zone across the Varanger Peninsula.

Instructions to Authors

Norsk Geologisk Tidsskrift publishes papers in English, exceptionally in French, German or the Scandinavian languages.

Authors proposing or introducing new stratigraphic names are requested to conform to the rules laid down by the Norwegian Committee on Stratigraphy (see *Norsk Geologisk Tidsskrift* 66, Suppl. 1) and to contact the Committee to obtain approval for these new names: Norsk Stratigrafisk komite, NGU, P.O. Box 3006, N-7002 Trondheim, Norway.

Manuscripts with abstract, references, figures and tables on separate sheets, should be sent in four copies to the Editorial address on page 2 of this cover. The author's permanent and temporary addresses must be given. Manuscripts accepted for publication will not be returned to the author unless requested. The author is requested to retain a complete copy of the manuscript. Proofs sent to the author should be read carefully and returned promptly. The author will be charged for changes against the manuscript made by him in the proof. Reprints should be ordered on the form provided when returning the proofs.

MANUSCRIPT

The manuscript must be written on one side of standard sized paper, double spaced, and with approximately 5 cm margins. The text must be clear and concise; before submission the manuscript should be checked by a linguistically competent person. Manuscripts should be arranged in the following order: (1) Concise and informative title. (2) Author's name unabbreviated. (3) A short abstract, not exceeding 12 lines. It should always start with the name of the author(s), title of article, *Norsk Geologisk Tidsskrift* with space left for Vol. No. and page numbers. The abstract should convey the scope of the paper, emphasizing the results and conclusions, not merely describing the contents of the paper. (4) The author's name and professional postal address underlined. (5) The main text. Use three or fewer grades of headings. All headings should start at the left-hand margin and be typewritten in lower case: they are not to be underlined (except those to be italicized). Brief *Acknowledgements* of grants and other assistance, if any, should be placed at the end of the text. Indicate in the left-hand margin the approximate positions for the insertion of Figures and Tables. The words Figs. and Table should be written with capital initials and should be referred to in the text by their number. (6) A list of References conforming with the examples given below. Abbreviations should not be used: complete journal titles should be given in the list of references. Use the ampersand (&) for all joint authorships in the reference list and for double authorship in the text. Use et al. for references with three or more authors in the text. (7) Figure captions on a separate sheet. (8) Tables should be numbered with arabic numerals, each having a descriptive heading and typed on a separate sheet. Very large tables should be typewritten on separate sheets to be printed on facing pages. They must be typewritten on good quality paper with all rules drawn in with a fine pen.

ILLUSTRATIONS

All illustrations should generally be termed Figures (not Plates) even if occasionally covering an entire page. Do not send *originals* for illustrations until the manuscript has been accepted/revised. Send, instead, photographs or photocopies with initial submission of the manuscript. It is recommended that figures are constructed either for the entire width of the printed page (i.e. 177 mm) or for the width of one column (i.e. 86 mm); occasionally one-and-a-half columns (130 mm). The maximum printed size in NGT is 177 × 243 mm. Letters should not be smaller than 1 mm after final reduction for printing. Photographs should be clear, sharply contrasted, and printed on white paper with glossy finish. Slides are not accepted. Figures may be composed of several units (A, B, C, etc.). All units should be similar in tone. All figures should be marked with numbers in arabic numerals, and the author's name. Do not attach captions to the figures. When not obvious, the top and the bottom of figures, and their scale, should be indicated.
