# Norwegian Journal of Geology

## Norsk Geologisk Tidsskrift

The main journal for Norwegian geological research, distributed to all members of the Norwegian Geological Society. First published in 1905, this geological journal is issued quarterly by the Norwegian Geological Society (Norsk Geologisk Forening). The journal publishes research articles, review articles, papers, notes and discussions relevant to the varied and complex geology of Norway, the Arctic regions, and adjacent offshore areas. Scientific papers from all geological, geophysical and geochemical disciplines are considered for publication. The contributors, referees and readership are widely international.

Correction: Please note that Norsk Geologisk Tidsskrift (NGT) Vol. 82, nr 2, was not correctly paginated. Issues of one volume of NGT should show consecutive page numbering, and the mistake in Vol. 82 nr 2 may lead to possible confusion with Vol. 82 nr 1. To avoid problems when referring to papers in Vol. 82, nr 1 and 2, issue numbers may be provided between brackets after the volume number.
